OBJECTIVES

Motivated and detail-oriented Software Developer with a strong foundation in programming, problem-solving, and software development lifecycle. Eagerly seeking a challenging role in a reputed organization to leverage my technical skills, building efficient, scalable, and user-friendly applications

EDUCATION

SRMCEM, Dr.A.P.J. Abdul Kalam Technical University, Lucknow

2022 – 2026

B.Tech - Computer Science and Engineering - CGPA - 8

Lucknow, Uttar Pradesh

PROFESSIONAL EXPERIENCE

Intern at IBM [🔗](#)

Aug 2024 – Sep 2024

Role: Data Science

Lucknow

- Utilized **Jupyter Notebook** and **Anaconda** for data analysis and visualization.
- Worked with **TensorFlow**, **PyTorch**, **Scikit-learn**, and other libraries to build machine learning models.
- Applied **ML algorithms** to process and analyze large datasets for actionable insights. Fetching data from APIs.
- Working with APIs Web Scrapings .

PROJECTS

AI Code Reviewer [🔗](#) | Node.js, Express.js, Axios, API calling

2024-25

- Set up a Node.js server with Express, integrated Google Generative AI for code analysis.
- AI response handling, implemented AI-driven feedback using a structured POST request approach. PrismJS for improved code readability.
- Implemented Markdown rendering for better formatting and styling.

Instagram clone [🔗](#) | Node.js, Express.js, MongoDB, Mongoose.js, EJS, Multer.js, AJAX, Axios 2023 - 24

- Developed a feature-rich Instagram clone with a scalable backend using Node.js and Express.js. Designed and implemented MongoDB database schemas with Mongoose.js for efficient data storage
- Integrated AJAX with Axios for smooth, asynchronous data fetching and dynamic user interactions.
- Implemented image upload functionality using Multer.js, ensuring efficient file storage and retrieval.
- Followed RESTful API principles to enable seamless communication between frontend and backend Ensured responsiveness and optimized performance for a real-world social media experience.
- Created a visually appealing UI using EJS templates, enhancing user experience.

Printrest clone [🔗](#) | Node.js, Express.js, MongoDB, Mongoose.js, Multer.js, ChatGPT Integration 2023

- Built a Pinterest-inspired web platform using Node.js and Express.js for scalable backend architecture Utilized Express-generator for rapid and structured project setup
- Implemented user authentication authorization with Passport.js to ensure a secure and personalized experience.
- Leveraged ChatGPT integration to enhance user engagement with interactive AI-driven features. Followed RESTful API standards for smooth frontend-backend communication .

TECHNICAL SKILLS

Programming Languages: JavaScript, C/C++, Java

Databases: MySQL, MongoDB.

Tools and Frameworks: NodeJs, ExpressJs, Django, GIT, Linux, React.

Fundamentals: Operating System, OOP, Data Structures, Algorithms, DBMS.

EXTRACURRICULAR

- * Taught basic backend and frontend languages/DSA in offline Mode. 02-2024 – 1-2025
- * Student Representative Council Member from 2024 to 2025
